

## Testimonials

“Kathy Wire's broad spectrum approach to risk management helped us to decrease our liability exposure significantly. By renaming the risk using statistical and qualitative reports, Kathy identified trends and patterns which allowed us to effectively communicate risk information to the appropriate audiences.”

### **Terri A. DeSio**

Formerly General Counsel,  
Mercy Health Center  
Laredo, TX

“I am still thinking about how wonderful and effective your presentation was in my class. It was exactly the sort of thing they need to think about the BIG PICTURE of safety, risk management, and disclosure. Many times, it seems, we don't help people to think about the basis of all of those efforts....partnering with people, collaboration, fairness, and avoidance of conflict. You do a brilliant and such a credible job of communicating that.

We are indebted to you for your service to our learning!”

### **Valerie Yancey, RN, PhD.**

Associate Professor  
Primary Care/Health Systems Nursing  
Southern Illinois University-Edwardsville

“The feedback from our staff physicians was very positive. She is excellent speaker. Moreover, she reviewed the structure, processes, and function of our risk management department... What strongly impressed me were the findings and recommendations she had proposed. Her consulting services are the best I have dealt with. She maintains close communication with me and is always available to answer any questions.”

### **Yvonnda Ford, JD, MHA**

Chief Compliance Officer  
Lincoln County Medical Center
